EUROPEAN LIPOSOMAL TECHNOLOGY

A phospholipid layer. A different way to carry nutrients.

A liposome surrounds a water-filled core with a phospholipid bilayer. It can carry compatible water- and fat-soluble ingredients and help protect sensitive nutrients.¹

Some studied formulations show improved absorption. Performance remains ingredient- and product-specific.²

Performance depends on the ingredient, formulation and stability. The cited research does not establish equivalent benefits for every LIPO 365 product.

1. Adapting liposomes for oral drug delivery (2019). 2. Purpura et al., Eur J Nutr (2024), vitamin C study.

The Daily Sure portfolio

Amounts per 25 mL shot

PRODUCT	COMPOSITION PER 25 ML SHOT
Creatine	Creatine 2 g
Collagen Marine (fish) or bovine	Collagen 3 g
K2 + D3	K2 15 µg; D3 25 µg
Curcumin	Specification on enquiry
Vitamin C	Vitamin C 1,000 mg
Magnesium + B6	Magnesium 250 mg; B6 1.8 mg
Iron + B12	Iron 17 mg; B12 1,000 µg

Every formulation, two pack options

No. 7 · 7 × 25 mL No. 30 · 30 × 25 mL

Both pack options are customizable across the range, including marine and bovine Collagen. Follow the specific product label for serving guidance.

Built for life on the go.

Five liposomal formulations in a compact beadlet capsule format.

Small beadlets.
One convenient capsule.

A familiar format for everyday routines, at home or on the move.

Illustrative artwork. Final packaging artwork may vary according to local regulations and market requirements. Capsule colours and appearance are illustrative.

The AKTI Life portfolio

Liposomal beadlet capsules

PRODUCT	LISTED COMPOSITION	PACK
 Vitamin C	Vitamin C 500 mg	30 capsules
 Zinc	Zinc 20 mg	On enquiry
 Iron + Vitamin C	Iron 15 mg; Vitamin C 80 mg	On enquiry
 Vitamin C + D3 + Zinc	Vitamin C 250 mg; Vitamin D3 12.5 µg; Zinc 7.5 mg	On enquiry
 Glutathione	Glutathione 200 mg	On enquiry

Vitamin C: 500 mg per capsule. Confirm serving basis and pack specifications for the other formulations on enquiry.

LET'S DISCUSS YOUR MARKET

Bring LIPO 365 to your portfolio.
